Venus' silhouette to be visible on Earth; first time since 1882

In what scientists are calling a major celestial event, the silhouette of the planet Venus will cross the Sun's face on June 8. It will be the first time since 1882 that Venus will be visible from Earth. A "Transit of Venus Viewing Party" will be from 5:30-7:30 a.m. on the day of the event at the Marshall Center's Educator Resource Center. Several experts will speak, including astronomer Bill Cooke. There is no cost but participants must register by June 3. To register, call 544-5812. For details, see "Inside Marshall."

'Culture Change Roadshow' replay on Centerwide TV, 10 a.m., 2 p.m. Friday

WebTADS time, attendance information due May 28. See 'Inside Marshall'

Personalized book service available through Friday

The Marshall Exchange has a new vendor offering books that allow individual children's names and faces to be placed in a story. The service, "For Books About You" by "Create a Book," is available from 8:30 a.m.-4 p.m. through Friday in the Bldg. 4203 lobby.

Blood drive 8 a.m.-1:30 p.m. Friday, Bldg. 4316
